

# Press Release

**Cape Town, South Africa, 10 August 2011**— Concorde Solutions, a leading payment solutions provider in South Africa confirms it has successfully certified as a Level 1 PCI DSS compliant service provider with their Qualified Security Assessor, SecuriCentrix.

“Our PCI DSS certification demonstrates our adherence to the highest level of PCI Compliance and the commitment we maintain for safeguarding cardholder data. Concorde Solutions is proud to be an industry leader in the provision of PCI Compliant solutions for organisations looking to simplify payment processing and we are one of a select few in South Africa who have achieved this certification” said Elliot Bunney, General Manager at Concorde Solutions.

David Steele, QSA at SecuriCentrix said “Concorde Solutions have demonstrated a good level of compliance to the standard. I commend them on their efforts in achieving this status.”

The PCI DSS is a multifaceted security standard that includes meticulous requirements for security management, policies, procedures, network architecture, software design and other critical protective measures. This comprehensive standard is intended to help organizations proactively protect customer account data and it is designed to help facilitate the broad adoption of consistent data security measures on a global basis.

## **About Concorde Solutions**

Concorde Solutions formed in 1999 is a privately owned company with a clear focus on transaction processing including integrated card solutions for the hospitality industry in conjunction with major South African banks and the international transaction software supplier, Traderoot Africa. Concorde’s EFT products include integrated card solutions for leading Point of Sale vendors and popular restaurant groups.

## **About SecuriCentrix**

SecuriCentrix is a provider of information security assurance and compliance validation services worldwide. SecuriCentrix partner with organisations to ensure that critical information essential to their business success is secure.

Their approach is comprehensive and unique as their aim to fully understand their clients business and determine the risks and exposure of their assets. By understanding the business they assist clients in understanding, managing and mitigating the threats to information security.

SecuriCentrix has a wealth of experience within industry sectors such as ecommerce, financial and payment card industry services, public sector, educational institutions, gaming, travel and tourism having successfully delivered projects across Europe, Sub Saharan Africa and India.

SecuriCentrix has a global presence with office locations in Cape Town, South Africa and Dublin, Ireland.
